Senate Today, Chairman of Finance Committee Expressed Utmost Confidence That Schedules of Payne Bill As Amended Would Raise All the Rev- One of American Missionenues Needed.

(Special from United Press.) Washington, April 19 .- In opening the tariff debate in the Senate today Senator Nelson W. Aldrich, chairman of the Finance committee, expressed the About ten years ago, Mr. Barber founded the Locomobile Company of America, in which he held a controlling interest to the day of his death.

Mr. Barber was in the real estate business in Washington in 1876 when utmost confidence that the schedules of the Payne tariff bill, as amended by the Senate committee, would raise al the revenues needed for the public expenses on a liberal scale. He declar ed that the expenss of the government could be considerably reduced and pleaded that the new measure be given a trial before any resort be had to special taxation such as that on incomes, inheritances, checks, felegrams, etc. With regard to his belief that expenditures can be cut down from the

"unprecedented extravagance" of last year, Mr. Aldrich said: "From an investigation more or less superficial, I am satisfied that appro-priations made last year could have been reduced at least \$50,000,000 with out impairing the efficiency of the pub-lic service. There are periods in the life of a nation when the spirit of ex-travagance pervades the atmosphere and the public money is scattered right and left, often without regard to the results secured. For the purpose of ascertaining the relative revenue-producing qualities of the Senate bill and the act of 1897.

Aldrich said it applied the rates of the Senate bill to the importations of 1907 to show the revenue that would have been derived upon the importations made in 1907 if the Senate bill had been in force during that year. "We have selected the year 1907 for

ABDICATION OF SULTAN

In Opening Tariff Debate in Christians Preparing to Defend Themselves-Serious Disorders at Smyrna-Eight Foreign Warships Hastening to the Scene.

> gregational Minister, Rev. Daniel Miner Rogers, New Britain and Who

(Special from United Press.) Philipoppolis, Bulgaria, April 19.-The Young Turks and Macedonian troops will reach Constantinople tonight when they are expected to demand the Sultan's abdication. It is believed here that the Turkish Ministry will promptly resign.

Alepho, Asiatic Turkey, April 19.-Twenty Christians were killed at Marash eighty miles north of here today, in a fresh outbreak of rioting by of 55,000 and numbers in its population thousands of Armenian Christians. If the latest outbreak is not speedily checked it is feared that the butchery

in Adana will be eclipsed.

Teheran, April 19.—Russia is to-day taking advantage of Turkey's inability to interfere by rushing a large force of troops to Astrabad, the former revolutionary stronghold, where 2,000 inlutionary stronghold, where 2,000 inhabitants are reported to have been massacred by Turcoman tribesmen.

The Russian advance is being made under the guise of restoring order and protecting the lives of the people but it is believed here that the Russian occupation will be permanent, just as the English occupation of Bushier will prove to be.

Constantinople, April 19.—Despite the fact that telegraphic communication with Mersina has been resumed, little news has been received and it is stated that nearly all of the telegraph operators have been killed. Massacres are still in progress throughout the are still in progress throughout the entire district. A belated message from the British Vice Consul at Adana states that conditions there have been exaggerated, that murder and riot prevail and he is significantly adds that "even worse trouble is feared." The next outbreak is expected at Alexandria. Advices received from there to-day state that the entire Christian population has gathered in the Christian residences there, that harricades are being erected and that the Christians are preparing to defend themselves against the infuriated Mussel-

Serious disorders are reported at Smyrna. The feeling there has been intense. Eight foreign warships are hastening toward Turkish waters and it is expected there will soon be pro-tection available for the foreign residents. Some of the warships are proceeding under such urgent orders that they have not even stopped to replen-ish diminished food supplies. The names of the two missionaries murdered at Adana are D. M. Rogers and Mr.

London, April 19.—After throwing an advance guard into the Pera and Galata suburbs of Constantinople to protect the lives of the foreign residents the main body of the Young Turks tween the Seaside club and the Alarmy will march on the Yildiz Kiosk gonquin club of this city for a hand-some silver cup which has been offer-tion of the Sultan, according to a telegram to-day from the Constantinople correspondent of the Exchange Tele-graph. The telegram says the Young Turks advancing against the capitol have now reached the outskirts of the city and that the advance guard orders to occupy Pera and

Galata at once.

The advance of the soldiers was hastened last night and it is said there are now 20,000 Young Turks, well armed and officered within striking distance of the city. This force is more than a match for the Sultan's troops and dis-patches say the latest indications are that the city will easily be forced to

surrender. Sofia, April 19.—It is rumored here that the Sultan has offered to abdicate on condition that the committee of the Young Turks agree to safe-guard him and his property. The ru-mor states that the offer has been ignored by the Young Turks. It is fur-ther believed here that the Young Turks have already proclaimed
Mohammed Rechad as Sultan. He is
the brother of the Sultan and the report that he has joined the Young
Turks party is not confirmed. It is known as a certainty however, that he has disappeared from Constanti-nople. There is, of course, the possi-bility that he has been assassinated inasmuch as the Sultan was very jeal-ous of him and has known that he was the choice of the Young Turks to head

Attorney John F. McIntyre believes that not on-ly was Captain Hains insane when he killed Annis but that he is still in that condition and it is reported that when the case of the prosecutor is complete he may ask the appointment of a com mittee to pass upon the captain's san-ity. The captain's family also think he is insane but believe he could be tried and acquitted. The matter however, will be permitted to remain in abeyance until the strength of the state's case is developed. Captain Hains looked bad when he

There will undoubtedly be a report by a majority of the committee, favor ing a new city harbor line, which will be concident with the government line between Stratford avenue and the Naugatuck dock, and which will di-verge from the government line at the dock in such a way as to divide the disputed area almost in half, so that the railroad company will receive about six acres, and the city of Bridgeport about five and half acres.
